

Instantly Seal Water Leaks with **ACTFLEX HYDROPLUG**

Water leaks can cause structural damage, mould growth, and costly repairs if left unchecked. That's why professionals trust **ACTFLEX HYDROPLUG**, a rapid-setting, non-shrink cementitious compound designed to instantly stop active water leaks in concrete and masonry surfaces.

Where to use ACTFLEX Hydroplug?

Water Tanks & Retention Structures

Perfect for sealing cracks, holes, and penetrations

Basements & Underground Car Parks

Stops active leaks in foundation walls and slabs

Tunnels, Sewer Systems & Lift Shafts

Waterproofs high-pressure leak points

Concrete Pipes & Joint Sealing

Secures pipe joints and prevents seepage

Rapid Anchoring

Ideal for bolts, conduits, and sanitary fittings
